cognitive individual differences in pdf

In psychology, the term "cognition" is usually used within an information processing view of an individual's psychological functions (see cognitivism), and it is the same in cognitive engineering; in a branch of social psychology called social cognition, the term is used to explain attitudes, attribution, and group dynamics.. Human cognition is conscious and unconscious, concrete or abstract ...

A cognitive bias is a systematic pattern of deviation from norm or rationality in judgment. Individuals create their own "subjective social reality" from their perception of the input. An individual's construction of social reality, not the objective input, may dictate their behaviour in the social world. Thus, cognitive biases may sometimes lead to perceptual distortion, inaccurate judgment ...
